

Innovation!

from Tohoku Univ!

Tohoku Techno Arch Co.,Ltd.

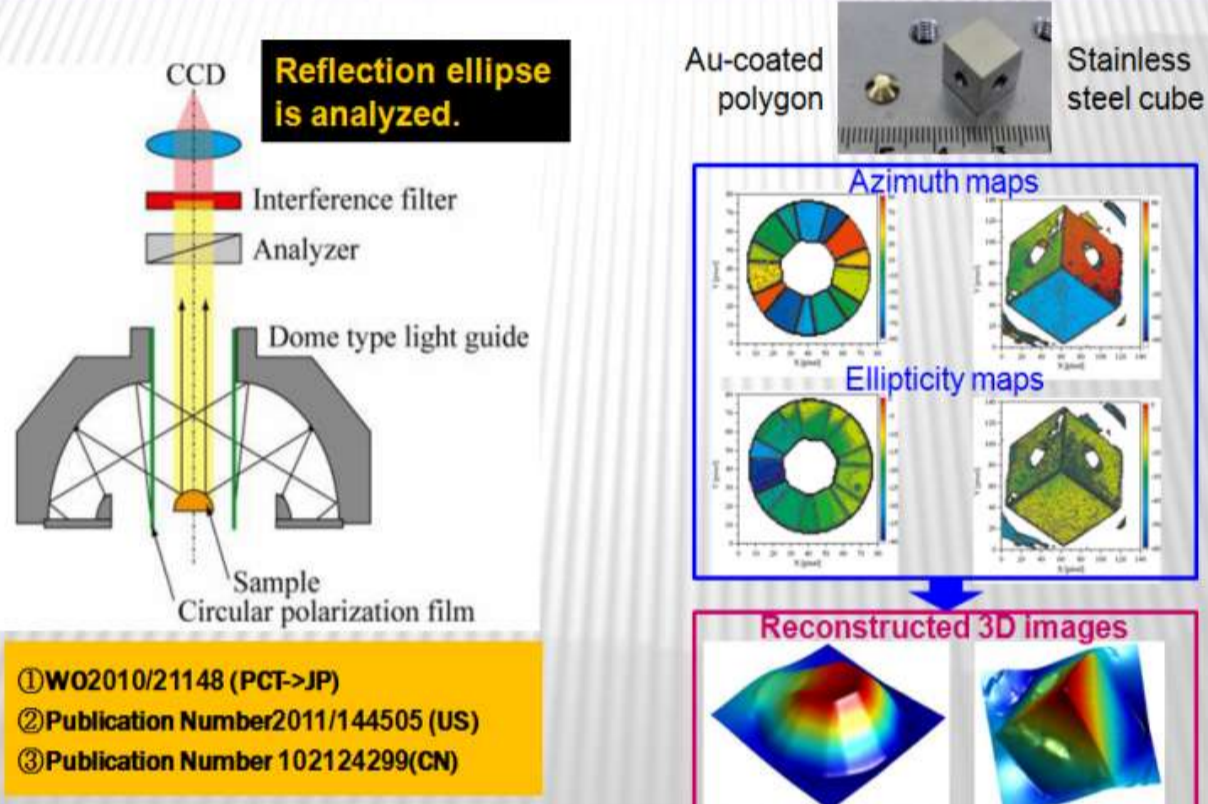

Akira ISHIYAMA

Seeds –LICENSEE is WELCOME !! –

『 New 3D Measurement System 』

Inventors: Assistant Professor Tsuru

Fast measurement without “scanning”

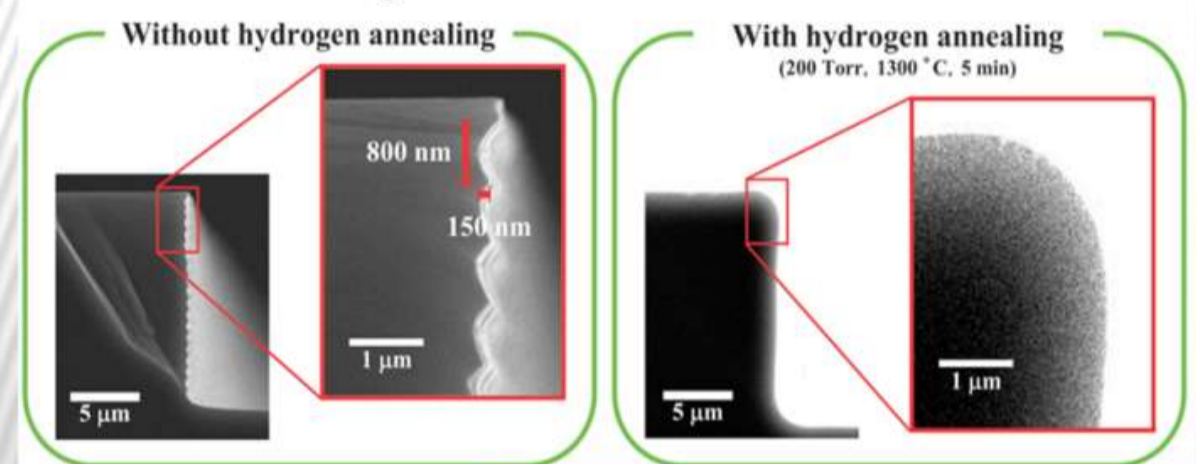

『 Nano-level surface treatment 』

Inventors: Associate Professor Kanamori

Keeping initial shape, nano-level surface treatment is possible!

~ roughness of the Si sidewall ~

① Know-How

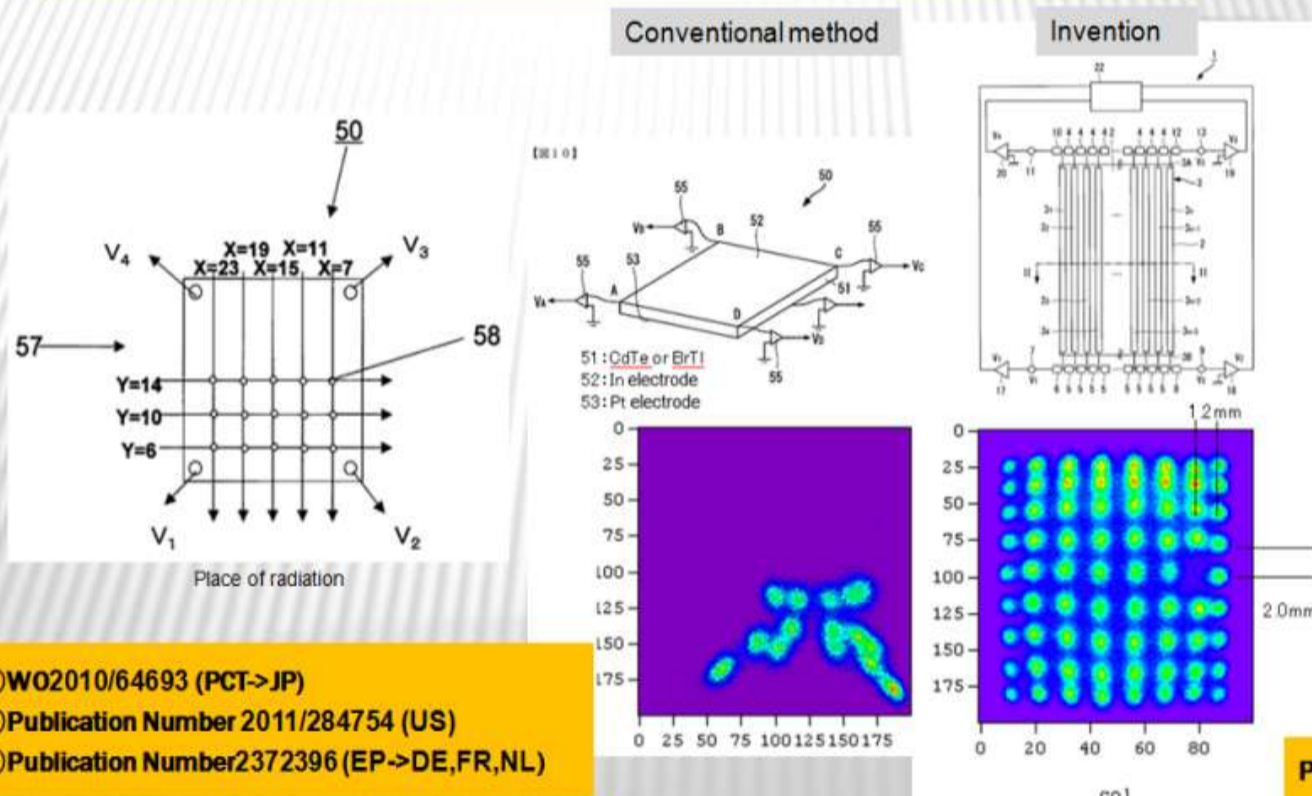

Material transfer is welcome!

※ MTA/Option contract is mandatory

『 NEW PET (positron emission tomography) 』

Inventors: Professor Ishii
Assistant Professor Kikuchi

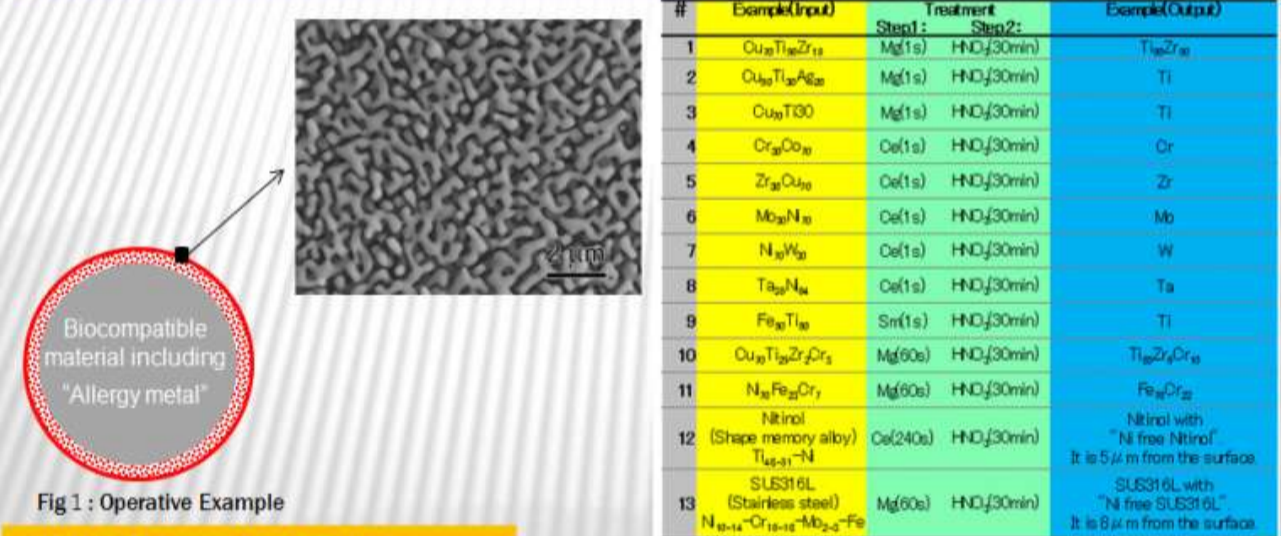

1mm size of Cancer can be detected!!

『 Nanoporous metal 』

Inventors: Associate Professor Kato, etc

Possible for Nanoporous of Stainless steel, Nickel titanium !!

① WO2011/92909 (PCT->JP)

② 13/574,854 (US)

③ 112010005201.84 (DE)

Material transfer is welcome!

※ MTA/Option contract is mandatory
